Subject: Thank you

I want to thank Lesia for all your help in Jesse's campaign. I know it was exhausting at times doing all that traveling with little money. You did a great job supporting him and it enhanced his public persona to have you by his side.

Thanks too to Jennie for managing the money and to Fannie for all you do.

I know we all wanted to have a better showing, but the percentage of votes goes up each time. Some day when we can afford television ads and get the message out it will be even better. Congratulations everyone, and thanks especially to Jesse for representing the Mountain Party again and keeping us on the ballot.

Karen Grubb, Mountain Party Secretary

Elements of Strategy

Applying Martial Arts Insights to Social Change Action

For centuries, the traditional martial arts have been a means of self-defense as well as physical and mental development. But the strategies and principles on which they are based can also be applied to working for positive social change. This workshop will explore ways that people can make the most of their efforts and energy.
